

Alberto Ortiz Sánchez

Junior Full Stack Developer · Odoo · PrestaShop · TypeScript

PROFESSIONAL SUMMARY

Junior Full Stack developer with an internship at Lynx Devs (Granada): Odoo and PrestaShop modules, a connector with Sage 50 and WordPress sites. 50+ public repositories and the official website, with an easy-to-manage CMS, for the Inspiring Girls Foundation Panama. Higher Technician in DAM and currently studying an FP Master's in Machine Learning.

PROFESSIONAL EXPERIENCE

Software Developer Intern (FCT)

2026

Lynx Devs · Granada

- Built a connector integrating Odoo, Sage 50 and other platforms.
- Custom modules for Odoo and PrestaShop: order management and shopping cart.
- Security analysis and development of web analysis applications.
- Client websites and plugins on WordPress; SaaS applications and custom software.

Full Stack Web Developer (Volunteer)

2026

Inspiring Girls Foundation Panama

- End-to-end development of the official website (frontend, backend and an easy-to-manage CMS) in 50 volunteer hours.
- Professional recommendation letter signed by the Director, Dr. Iraira Butcher Boza.

IT Technician Intern (FCT)

2024

IES José Hurtado · Centro, Granada

- Assembly and configuration of computer equipment; hardware and peripheral support.
- Administration and development of WordPress sites.

SKILLS

PROGRAMMING LANGUAGES

JavaScript · TypeScript · Python · Java · C++ · HTML/CSS

PLATFORMS AND CMSS

Odoo · PrestaShop · WordPress

DEVELOPMENT TOOLS

Git · GitHub · Linux · Databases

LANGUAGES

Spanish	**Native**
English	**B1 (Cambridge)**
French	**A2 (Basic)**

Science Baccalaureate

2022

IES Padre Suárez

- Average grade: 9.10 · University entrance score: 11.08 (out of 14)

KEY PROJECTS

taskflow

TypeScript / NestJS / React

Full-stack task manager: NestJS 11 + Prisma + PostgreSQL 16 API and React 18 + Vite + Tailwind 4 UI. JWT auth with refresh-token rotation, RBAC roles, Kanban board and Swagger.

odoo-dynamic-pricing

Python / Odoo

Odoo module that automates dynamic pricing: scrapes competitors (Amazon, Google Shopping) with multithreaded scraping and adjusts prices in real time based on margin rules.

generador-cv

JavaScript

CV generator in pure HTML/CSS/JS: editable templates, photo upload, custom typography and colors, unlimited sections and PDF export. Works offline. This CV was generated with it.

The Memory Game

Unity / C#

Published on the Google Play Store. Mental training game developed in Unity and C#.

More projects on GitHub

GitHub

50+ public repositories: web, desktop, mobile, bots, cybersecurity and video games.
